

Project Design Phase-I
Proposed Solution

Date	19 September
Team ID	PNT2022TMID24832
Project Name	Project - Real-Time Communication System Powered by AI for Specially Abled
Maximum Marks	2 Marks

Proposed Solution Template:

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Helping blind people communicate by using hand gestures
2.	Idea / Solution description	Aiding blind people in communicating through hand gestures
3.	Novelty / Uniqueness	Making hand gestures to communicate with blind people
4.	Social Impact / Customer Satisfaction	By using the project, blind people will benefit
5.	Business Model (Revenue Model)	It is now evident that blind people are becoming smarter and more knowledgeable without their eyes, and this project will assist them in buying, increasing their market, and allowing them to communicate with others.
6.	Scalability of the Solution	More users working simultaneously will make the application more efficient.
